### **Government Procurement Service selects SirsiDynix for Local Government Software Application Solutions (LGSAS)**

*SirsiDynix selected as a supplier for the LGSAS framework, which covers software application solutions for local government, agencies, educational institutions and more.*

**WATFORD, UNITED KINGDOM (Sept. 22, 2011)** – SirsiDynix, the world’s leading provider of library technology solutions, has been selected as a successful bidder in Lot 5 of the [Local Government Software Application Solutions \(LGSAS\) Framework tender](#). SirsiDynix is now an authorised supplier in Lot 5 of the framework, which covers library, museum and leisure-related software application solutions for local government, the NHS and education establishments maintained by DCSF.

“SirsiDynix is proud to have been selected as a supplier for the LGSAS framework and to pass on these cost efficiencies to our library customers,” said SirsiDynix Chief Executive Officer Matt Hawkins. “We see this as one more opportunity to add value for our SirsiDynix libraries in the United Kingdom.”

The new framework will deliver significant, sustainable savings across the public sector; deliver expert sourcing category and centralised data management; permit libraries to manage their spending more efficiently by directly approaching suppliers on the approved list; and generally enhance the effectiveness of the procurement process.

There is also [an agreement](#) in place between the Government Procurement Service and Pro5 which covers the five largest local government buying consortiums in the UK: CBC, ESPO, NEPO, WMS and YPO. If an authority prefers to deal with its local buying consortium, it is still able to take advantage of the Framework agreement.
