

## Over 9,400 Library Sites Experience SirsiDynix BLUEcloud Solutions in 2014

*BLUEcloud products impact thousands  
of libraries worldwide*

**LEHI, Utah (February 25, 2015)**—SirsiDynix is pleased to announce that 784 library systems experienced the BLUEcloud Library Services Platform in 2014, totaling over 9,400 individual sites worldwide. These sites have been able to use multiple BLUEcloud products, including BLUEcloud Analytics, BLUEcloud Cataloging, Enterprise, BookMyne, BLUEcloud PAC, eResource Central, MobileCirc, and Portfolio.

The next-generation LSP gives Horizon and Symphony libraries a complete administration, acquisition, and discovery system that breaks down silos, increases efficiency, and reduces costs through modern cloud architecture. As additional BLUEcloud products are released and developed, these libraries and more will discover the many benefits that the BLUEcloud LSP offers.

"2014 proved to be a very successful year," said SirsiDynix CEO, Bill Davison, "and not only for SirsiDynix. Thousands of libraries have been able to experience BLUEcloud firsthand and will continue to do so as we incorporate each site's feedback into future BLUEcloud releases. These products don't only impact the library, either—thousands of communities are benefitting from the Best Library User Experience, in the library or on-the-go, no matter the size or type of their library."

### **About SirsiDynix**

SirsiDynix connects people with knowledge at more than 23,000 libraries around the world. Through library management technology and search and discovery tools, libraries using SirsiDynix technology bring relevant resources and the power of knowledge to their users and communities. SirsiDynix technology center is architected to be open, scalable, and robust, offering a complete out-of-the-box solution and unparalleled flexibility through APIs and web services. Complemented by the most experienced training, consulting, and support staff in the industry, SirsiDynix helps libraries create tomorrow's libraries, today.
